Magalie R. Salas  
Federal Energy Regulatory Commission  
888 First Street, N.E., Room 1A  
Washington, DC 20426

Dear Ms. Salas,

I am writing to you today to protest the building of a Liquefied Natural Gas Facility in Long Island Sound. Long Island Sound is a small estuary with 20 million people living around the Sound and using it as very important recreational facility as well as a commercial area for harvesting shellfish and finfish. The Sound is just now recovering from pollution and the delivering of the liquid natural gas by 2 or 3 tankers per week would destroy both the fishing industry and a lot of the recreational area.

Please do not build this facility here.

Sincerely,

Adrienne Silver
